"We have been streaming our lectures to CFA candidates in other states and other countries since January 2006," said CFALA President Asha Joshi.

"We're now taking this innovative program to an even higher level by delivering content to soldiers or sailors who have access to a computer and the Internet. This will help those who are interested in an investment career to prepare now for a successful transition to civilian life."

Larry Harris, Director of the Center for Investment Studies at Marshall, noted that the CFA designation, which is recognized internationally, "requires a rigorous course of study. Our program has helped hundreds of candidates preparing for the CFA examinations to learn from USC faculty members and from CFALA members who hold top positions in the investment community. We are pleased to now share our resources and expertise with U.S. servicemen and servicewomen."

"As we observe Veterans Day, we want to honor all those who are serving our country and thinking about their careers after the military by providing a way for them to participate in the CFA program from wherever they are."

The CFA Society of Los Angeles, Inc. (CFALA) is a network of investment management professionals that works to disseminate useful financial information and promotes the highest standards of ethics, education, and
